## PRE EYELASH EXTENSION ADVICE

- Remove all eye makeup with a mild oil-free cleanser.
- Do not put on any mascara, we'd rather spend time working on perfecting your lashes.
- If you are a contact lens wearer, please remove your contact lenses and wear glasses to your appointment. Application will take no longer than 1 and half hours for a Full Set of Eyelash Extensions.

## POST EYELASH EXTENSION ADVICE

We hope you love your lashes!!!

It is important to know that your natural eyelashes will fall out and replace themselves every 60-90 days and a new lash cycle begins, we always have eyelashes in the telogen stage this is why you will notice the shedding of your eyelash extensions (if excess shedding occurs within the first week we will happily top up!)

The average time for a refill is between 2-4 weeks, however factors such as lifestyle and general after care will affect how long your extensions will last e.g. (heavy makeup, humidity, medication & illness)

- To maintain healthy looking eyelashes, brush lashes every day with a mascara wand and treat them with care. (these are always available to you as a client of Arteke)
- Do not rub harshly, itch or pick eyelash extensions and avoid oily creams and cleansers around the eye area, as this will weaken the bond of your eyelash extensions.
- DO NOT use a lash curler as it will break the lashes DO NOT apply water to the lashes for at least two hrs after the procedure
- Avoid waterproof mascara instead look for oil free mascaras (we love our Eyenvy!!!)
- DO NOT steam face, use steam baths, swim or wash eyes with hot water for two days following procedure
- Do not try to remove eyelashes on your own as you could damage your natural lash
- Always gently pat lashes dry
